

String

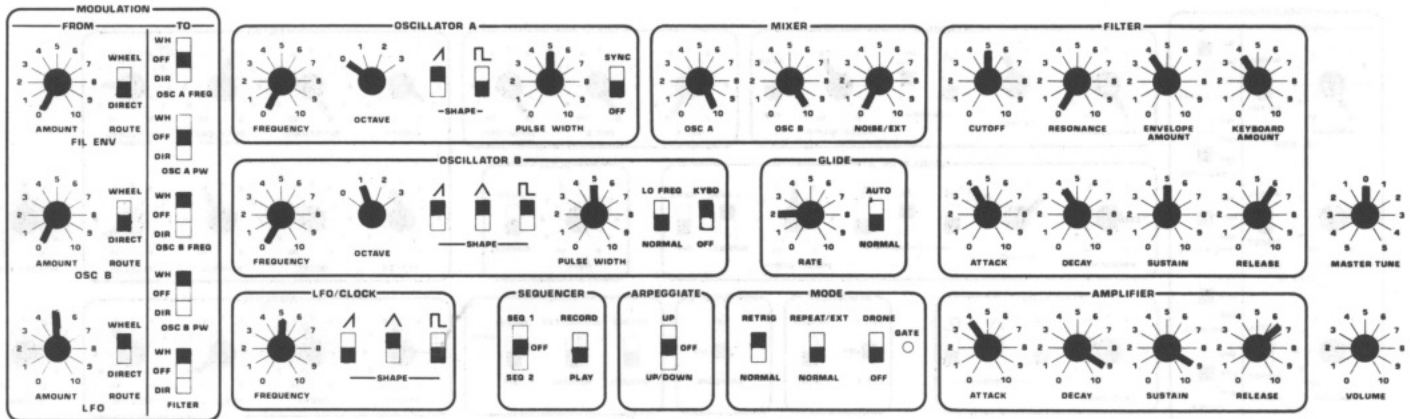

Percussive Organ

Tune OSC A 2 octaves plus a perfect fifth above OSC B. For proper effect, adjust OSC A PULSE WIDTH for square wave by listening for disappearance of the octave overtone. FILTER ENVELOPE AMOUNT adjusts brightness of percussive effect. Mod-wheel provides vibrato.

"Delayed" Envelope

Uses LFO as an envelope generator. (LFO is reset by keyboard trigger when ARPEGGIATE is switched on.)

Bass Synth Sustain

Tune OSC A 1 octave below OSC B.
